

ONLINE UKULELE LESSONS TESTIMONIALS

Nicole Kenter Gippsland Region?

Having seen an ad in the paper for Uke lessons, I thought I'd check it out. My daughter had been playing the Uke but was not progressing well on her own so I wanted to give her the little boost she needed. We have little time to be able to travel to lessons etc so when I saw that Phillip could do them by 'FaceTime' I thought I'd call. Phillip suggested that we learn together to help encourage her to play and practise. Looking back, this was the best suggestion! We started with the basics where my daughter felt like the expert of the two of us and we started to play songs, that sounded like songs! I was very impressed and we were having great bonding time too, something we often miss out on with our busy lives. Over 4 lessons we picked up so much and we have learnt enough to continue to play songs together which we really enjoy. I never have to get her to practise anymore, my daughter is picking up her uke every day just to play for 'fun'. Phillip was great fun to learn with, we had lots of laughs and he was very encouraging, (and forgiving when we sounded terrible! We sound much better now). I would thoroughly recommend Philip's uke lessons. With the convenience of face to face or over the computer lessons, a great value price, and how much we learnt and improved, we couldn't be happier. Thanks Phillip.

Mum and I did Uke lessons with Phillip for a month. We did it on the computer which was really good as we didn't have to travel into town. We learnt heaps and it was really fun doing it with Mum too. We play it together now and have learnt so many songs. Its good because we can help each other when we get stuck on something. Phillip was really funny and made me feel like it was ok to make mistakes while I was learning. I'm loving playing my uke and practise all the time now. Thank you
